, by the time we got there, se like the bleeding area botted already. Yeah, but she wanted to go get checked out. Yeah, so we just took a to St. David's.. Who's thing? No. We have. Yes, we're talking about we talking about damn, like, smelling the room and smelling, like a ba clot in there. Oh, my God, I actually telling you. I think I don't remember. I think we had one to the one She was like her hands. Oh, yeah, girl. Look, look up. Lily, the I have her jeans. What those like other more? Oh, my God, we had like so many problems with. She like, like calling the emergency like. like. And there's like an incident where she was, like, like head of like, just fling from the room like scing like a CA stuff like that. What happened in the hospital? And it's from the emergency room. That happened. literally, like, punch.. Literally something. Remember, like, what's is shot in pie 60s an hour Ad.. Whatever patients will not in here? Her name from.'s not in here today the emergency people want to come in there, and then we also a combination that actually died, like in the car or something.fortunate. Oh, my God. slowly, actually does. It actually does.r from the bottom. Okay, here. epic. Well, is it is it have a massive explosion? It didn't involve mem, but it was like lower GI timers still like out the.. It a. Huh? No? Yeah, yeah. When we say rect from. Yeah.. Anyway.. Anyways, so I have a. We were going to one on the Birch Four hospitals, and the patient have to urge to go to the bathroom un number two, but then we have the back p in the ambulance the EMTs on, like, just do it here, yeah, we don't have time to get the bed pan out. it would be too much we're trying to lift you up in a moving ambulance, guess how many ways back in trying to move you unless we're trying to put you away. Wait, how much time did you weigh? Four. I don't remember. We really asked a hundred. We really don't about 100 bre, we don't need5,000 people. We don't really. We really good. We always we in EMS, we really don't take patients, wait unless it's necessary, because don't get that information to help. Even though we cannot be see for ourselves if the regency overweight. It's, we can make information like. But yeah, in the, are one of the was like, just go right here. It's fine. We'll clean up afterwards. So the picture went? Where? On the ambulance? On the stretcher. Where? On the corner? On the structure you cheat in everything? Yeah, I'm doing the patient a patient I pants on, but, yeah. Uh uh! That's why the Nancy said we'll clean this up backwards, but just don't. you clean. No, we all all clean that.. No. What's worse? When I used to be in Derby, imagine going to the bloody cols that we end up picking upboard off. You want't know how much made you cleaning you know? On R date, it was like at 10 something at night. As I'm about to leave my ship, we get this much from more. Trunk versus motorcycle. We ended up going. We ended up going the bridge for. You want to know how we also have a paramed do priority one IS trauma alert to birch port. You want to the blood that structure was? I even when we finish. I found more bloody on the structure where I didn't even see, because the fish was bleeding everywhere. My piss was bleeding from sws, his legs. Yeah. D in general I hear his face. It's a big.. Just in general, I wouldn't even like. I hate. You? Yeah. I was gonna get. vanilla. But yeah, I'm fine with blood, but I can't I do not want to have the smeller look. Blood is fine because you. I don't know. Blood is just different from... That is true, because Hamealan, the blood that is Hized, that is the Scotland.

That is why, especially for blood banks, you freeze that blood up. You do not leave that key because that is going to healize. And then you're basically. And if you transfer and transfuse, healized blood, you're basically pulping potassium in the person. But basically does get into the tac. Yep... I like how we all have stories, and how we're, like, so mess.. Well, yeah, most of my stories are hemorrhage related, because I didn't money Yeah, of course, you lot of them are a lot of. People. I wait. I made. Why didn't you get a job as a CNA yet? I already do.? I do. Oh, when do you start? Yeah, I Congratulations on getting the job. Now's a comfort. Thank you. But, yeah, I'm in the process. So far, I even though I have my EMQ license, I'm looking for pay EMT positions., but I'm also looking for like patient tech positions. Most of them, you either need, like, medical assistance, CNA, EMT, or, like, anything, like, related to, like, I basically have my EMT start. So I basically have patient care experience. Yeah. Yeah, but but for, like, patient, for a, they require, you have people buy me and EKG, so next year, in the summer, I'm going to get my hobi shirt. That's summer at the summer. I'm going to Or we could just do the might as well just do a patient. But that's like longer. I can easily. That's like Yeah, have to go through like May.. We're do the online course. Even with the future of.. I.. Dianne, right, Diane? Yeah, Diane told me to give her a call in March.? Diane the Lady Anne Griffin. I Yeah, Diane Stogart? Yeah, she told me she told me she's go call me. She said she'll either call me a Marshall. I give her a call so can like start the process for the. Because that, you're going to look at Furo and then after Future, which is what I would do, then you go with them to do the program, which is not bad, because honestly, medical systems have to work with bother me to. So probably in March or something, you, I probably wouldn't be doing.. There's a chance that my. I'm not gonna do medical system because I already have my aunt, too. So I just need, like an additional certification. So I can, I can just get that one small thing and just just add it into my can. And like to do with in, maybe injection. I' easy. FB, EMT could we don't use FP p that anymore. We basically draw on the judge. Yeah. It's basically for F. I No. I was like, "Y is that? I get a fing in there mind. Forget it. I was like, " cool, was touches., that's what I not. I'm not. I was. I was punuring. You would not have hit me. You were so nonpultational. Carl, why use your hands? object, let's your hand. Oh, I don't care about that. What? They say they told. Oh, make sure you. Yeah, make sure you're depending. I. I have you a kiss my ass, and I wouldn't how to take that You've been doing a blood pressure. Oh, my God, I'm like. I love my.C in second, it's easy to look wrong.? Oh, your vinals? And then putting the on it his gl Melt before Yeah. My lieutenant told me up weights because people just like stick Oh. Dude, that's like, what? That's, like fifth? Yeah No, that's the third time, actually. Andless we get to the fifth. Watch it look in the car?.. I think you should get an actual Yeah, like a. I did like ticket.. Let me see you a wallet. This is a beautiful wallet. I do have a natural wallet, just. It show my thing in my. you lose your wallet. What then? No, what the walut looks like, and you know the size. What if you can't the wallet? I have a deep on it. Actually. And you can also reapply to get a cold. Yeah, but be saying whose cars.. Yeah, I have when I did my MT, I just like lost the car and then I just requested a new one. Why did you even lose your car? That's a

good question. I thought I left it with my wallet because I thought I fell out of my wallet in one of the ambulances. That's my first. But it was never found. But it's for some reason, somebody fine. They can't even use it anyway, so it's basically useless. I mean, did you, like, block in it immediately? Yeah, I app blocked it immediately. Once I looked everywhere with the support mother, like the car in the car. Yeah, you need a pin, but. But, some places you, some places. Some places they can buy past the pen. Or someone music t system, so use the Yeah, sometimes and if they'll ask you the pen or you can just press a pass.. Blick. now, like, so many will come on, like, what kind of cardio? But yeah, um.? No, what? very happy. No, I was literally just talking about something before Rashim. About, like, your pat? No, not that one. Damn, I, like, lost, like. Oh, you about the. Oh, no, I was talking about the bond pressure thing. So, literally when my lieutenant gave me a tiny because when people just put the steps go, yeah.. Yeah, because some people just put the steposcope, they don't even look for the brake your artery. Like, look at you to. Yeah. My lutenant tells me, like, how the brachial artery is once you feel pse, put that stepcope there.? Don't just, like, put it right there without it., I feel like a one time, like, she couldn't had, like, my artery, and you know, like, the one thing about, like,botomy is that if you can't find, like, the vein, then you're like, go more down like here. Oh, no, no. I like, you want to be like someone that's like, like vein, like where the vein is Try to get a vein around here. Going down to is more painful down. But like, right here a fine one? So there is a random guess and you're not supposed to do. You canstate and hit the artery. literally like, like both hands, both hands, the art. Don't a wild. Don't you know you can try your veins right here? saying. You can do. You lucky? She's not lucky. supposed to do that? You're supposed to like. You're supposed to do. You can have to the could ble out. So she couldn't collect my vein, right?'re supposed to feel like the vein, right? So she kind of feel through like, unble my arms. So she just like, she just like, inject it, like, over here. Even though she felt it, she could like killed the name because like, my, like, on both of my sides. So she just, like, gets on sick she gets in an area and she just pokes me? I' supposed to do that. You can't do this? Or if you can't. Yeah, but yeah, just try to, you can try. to get over H, you can get somebody over there. So she did the turtle but, like over in here and like, from this area. And she just gets with.. For real. Oh, my God, when I got bloodboard, I could tell this person was new, because I got booked over five times for them trying to on both sides. like even like the soph And I got, like a brise from that. A yellow bruise. Because it's because we'reling the needle too, because there's a certain way like Yeah, you don't want to cut a p through the lane. It's like a you know what I hooked through all the way through the skin? You want to just poke it through now where you pick your blood. Yeah. And I' Yeah, don't hit the ar because then that the art is screwed if you Literally, you're screwed. The best part, though, is that was like, what's it called a lobotomy and mascent, you might be able to, 'cause what you guys are doing Griffin with it, you guys might be able to be qualifying toward medicalists, too. I'm not some of the duties to dolebotomy is, like, medical. It's like propon medical system. Yeah. So, like, when, like, you're doing like filing stuff like that or doing like kind of stuff, like,

probably, like medical. The last time I got experienced doing filing was when Ie was volunteering I gri on Facebook finally, sorting out patient records. I that I. I'm I like that. I hands off. I, you' volunt up. You got patient about. Because with me, I wasn't get that. and I told him about in the bache, but they said, how about. You got. I was like, I told him, I totally do it. with me because we do like medical. I feel my medical. That's why I'm doing this. Because I feel that's a good chance. Thank you like teaching to little bit more better than my future. Probably, high school moment, you're getting here from actual. Just like, even though your causes. Most of them, you go to the EMT places to be we're planning. But Well, it's. Well, yeah, there's probably not much of words that you take it on your own or. I'? Yeah, I might go to Southern. Really? Ooh, what year are you? I have to reapply. I might go to Southern or I might go somewhere, like, I if I can.C I have I could do my application process again. Oh, yeah. So if I get accepted into Southern, because I, I wouldn't, if I went to Southern, I would have been with you, because I'm my biology in my. I wouldn't I would have been a major, and we would have been having bomb classes. I would be in the basic math club. I'm in the basic math level. Yeah, I would be the I have to take steps. I have to take steps next semester. And it's stupid because we have to take. until We're taking together. We're supposed to take three.. I want to see you. You.. I have other friends. I' also taking that are my, so I'm leaving it to my old friends, buddy. Oh, wait, yeah. Wait, because you're a nursing. You. Yeah, find your nursing. I'll find a lot of nursing, right? Okay, go to. I basically have a group. Oh, yeah. A group. My friend, yeah, I have my friend Natalie. Well, Miranda, who's in my class, she's a nongraduate, she's a non degree. She's good. She's just taking notes because it's prere physical therapy. Graduate school. Jasmine Parker. Jasmine Park. Yeah, she goes to Southern. She's a freshman like you, and she's interesting. Jasmine, Jasmine. I. I'm I show you a photo. Show me a photo because I I know a lot. The only people.. The only people nursing I know is basically my entire INQ class because we're all as a c board, as direct admin students. Jasm I. I saw her in somewhere. Yeah, she's a nursing. I feel like I recognized her, but I't know. I used to go to school with her. She went to six to school. Oh. Yeah. So I used to go to.. And then Savena. Oh, my God, I wonder how Savannah's do. I saw her yesterday when we were walking in the rain together. Oh, it was so fun. Literally, what's on.Cause I was gonna go to Southern but I just didn't, like, the dwarves, and No, but likes the freshman dorms. Literally, I just think there were very bad show because it was like, so small and I'm like, they were really good. And then plus I was like on a rainy day when I went to it was like on a cloudy, rainy day. Oh, you will the worst. But I remember, like, where everything's most friends. Like, I remember where the biology room was, but I didn't remember, like, where you would go for your map and something like that. Math? That is, like, sometimes it's. It's. You got, like, in Dwing, most of the math classes are in D wing. My math class is an A wing, like spread it out. It depends also on the building as well. But I know that liqu with you and Joseph, you back direction anyway. for biology, you guys have to go through like the science building and the biology or something. Yeah, so for our election so our lecture, this semester is in the's in Englement in the recital hall Gardner hall. It's

also used as the lecture hall. And then my lab is. Same. Our lab because it's in the building. But there's the huge academic science building. That building is beautiful. They have an aquarium in that building. Yeah, I'm not. I like it. I like my lab more than my lecture. Me too. lab lab just identifying stuff. Lecture, you got to know the physiology. on and like was not locking in and everything. So I said I still scre flicky, back and for Google today and I' like, "Dn, people are cheating. was almost I almost felt. I like, I was like, big I cheating. But I was like, When did that, man? Of course. What can I guess? No,6. It was a 60. So, that's. Oh, well. I got 66 on my first lab exam, I got a 90 on my second there. my God, it's not one.. I'm like a 50 something. Yeah. Like a 50. I got 51 My first 52? Dude, that was my test when I got my first. My first lecture for buyio, I got 68 with my second lecturing time I got in 84. So I didn't That's because he put extra credit in these extra credit. With nursing students, you have to go through biology, you guys go through like your next you guys do chemistry. Chemistry is paining. So chemistry. So we have so for, we have bio 200 b because of the I'm not. I'm not taking chemistry. I'm doing software. And you also have to do microbiology, bro. Okay, microbiology is not that bad, but literally chemistry sucks. I think that has toiology, but that biology is a well I. Oh, and biology? Literally. They te biology. I was talking to. Stop. Like, why is that part of ban? That looks pretty bad. I'm probably gonna be, why are they giving you like an animal classroom that you like a house? I feel like I love animals, but I don't want. You don't want to study. Imagine having to identify the the little components of the animal. animal cell. No. I hate cell biology. I hate cell biology so much. That's why you taking. You're gonna come with, like, microbiology. No, but microbiology, it's more interesting, but learning about the biology of the cell. That's what weopol. Uh. Is a lot of I heard that word. It's a plant.'s a plant. I've heard that in my. I I'm like, oh, I remember that.a class. The only thing I all about biology is the ped square.s the only thing on the. I heard a DNA, RNA.. DNA, RA MRNA. I'm like transcription translation.. I still out there. Yeah, literally from aucleus The nucleide. With you, you have the nucleic acids.. And basically they just say that just get to med school. With doctors they have to parts of the brain, You got to know every single part of an ad. For the, for the an example, we don't have to know every single thing. We just have to know, like, lots of them made stuff. But that's just they have to know every little thing. Yeah, it's not bad. But yeah Just qu you don't it. Yeah.. For my first bi chapter 4 was based.. No, yeah, Chapter 4 was basically biology of the cell. You. Oh, I need. I to do if you need the cups, you can go to Westow. I use Quizz? I use gizmo, I use a study Al You use gizmo? Yes. U Gemini. My favorite mor to use gizmo. I got lockedizmo when I saw Instagram. I was like, I can use that. G also works. Gemini Chap GPT I usedini.T to quit myself for lecture. I psych for the pret nursing professor and quiz me on the certain thing. Yeah. It gives me. I understand stuff better.. For me, I feel like multiple choice questions when I test, use Gemini. Google Gemini. I recommend. Because certain teachers don't recommend. Tyler wants to go home. Okay. We could continue talking. Oh, yeah, I might exposing you. You lipping at me. Wow, it looks nice. Oh, you got You have work. I have an early, let's go. Wait. Come on another. What's your? You got your receipt. Or someone's receipt.. Sorry. Sorry,

there? When are you gonna come find your wall. Oh, yeah. How much was his meal? Well, in total, it was, like, 20 or $20,000. my no one? Well, I don't the other one., don't. Yeah, check the receipt. You should isolize, and then just haven't paid you back for what you paid. Yeah, just have me and pay you back for what. So, nine and a half. Okay, so basically. Nine or $10. dollars just to it up, about nine or $10. Once you, Come on. $10... I all my life. and like, looking up like. No, no. No, I. I take all my lecture friends and from my bio, I tell my all the e I use. Snapchat any else? Then I' use Chat GT is my wife. Gemini was the one that me the most.. little pilot? Yeah. Oh, I loved it. Get in. Oh, how I need. Oh, my Lord. This damn key is so funny. Why is it always doing that? I stop. You denire together forever. Don't touch me.. We're all together. Ew, stop. Forever. Okay, now we're getting more costume people. Like, we might see Pinky Pie. Hey, imagine if we just sit in this park and just look at the costumes. Mason, get it. What the hell? God, that's creepy, actually. What's the? Mojo! Moo, Jojo? Wait, are they supposed to eat their McDonald's? I's.ble. Damn, they shoved. You should got photos of that. You got a photo a 40 year old girl. Why didn't you ask for my chargers?. I. No. No, mother would actually be fantastic for me. Yeah, when you come home, when you coming home? I'll be like, "U. I'd be like, she just killed my fun, so I'm going be like, let's go home.". I'm to walk in. Walk in, Chap. But yeah, I used T UBT for my lectures stuff. It's actually, so, I use it for my nutrition class as well, especially for the vitamin, because for the vitamins. Yeah. I put it input based on What the hell? What the hell Don't tomorrow's the weekend. Don't be like Moarrow where he sneezes like a.. Misss. Olsen, Mr. Cobbin literally got mad at him for that. Oh was. He basically woke up the entire cafeteria. How was that int? Oh, do you know where her house is? For eye memorized it. I have photographic memory like you, Joseph. So yeah, whatever you're missing is really, really bad. So if I give you a case chart and I ask you to review it and then give me an entire thing from top to bottom, you would be able to... A case chart. This is where I I say if you give me a case. What? I don't fucking care. Piss, my ass. Fine. How about something from your bio class if I give you an Phot is a mic and You said micocardiac. What? Fuck. Mitochond? You said microardiac, I have I have my live exam on Monday as well. I have my exam. I have an exam. I have my electric exam the week after. Am I in my nutrition quiz? Am my math exam? later next week. Oh, and I'm de Gallas on Wednesday night. I know. He knows how to dance now, guys. He's the only boy in the club. No. I'm where I saw it. He knows how to swifty now. Here's from the dance group, the Ola dancing.. Wait, no, this is the actual group. Ola dance team. Oh, yeah, How are you? Don't dance group. I was like, are you the only boy in the? I. He told me. He's the only. We're the only boy? The restaurant. It's first. for girls. Yeah, the rest are all girls.. No wonder there's lots of What the hell? Oh, no.. Yeah. Yeah. Hi Carl. Or for that softing instead turns, I don't want. I want I want to make sure.. I want to reasserve the. I'm sorry. I'm only available Thursday, Friday, Saturday. Sunday.. Well. The first. They most likely got. We're supposed to have lives and technically, this time we assign who's going to be wet... I have a feeling they got the notion that I wasn't going to be available for all, though all the week. All that days of the week. I lift the witch in reality, I'm. It's reality. Outside

students about messing. Yes, the tickets for $1, however. Because it's past the9.. So I calling them the hiring manager wasn't there. It's 8 p.m to midnight at 9 p.m. He always leave at 3 o'clock you. He literally called me at like s something. 6, seven. something in the evening. What's? Six? I don't even know. Six something. Oh, something. Yeah, the phone number literally just came up with., 6. One. It's just no phone number and then number in the city. What was the, you know those videos like? I' never watched those tomorrow. I'm making stories that they know that I'm available I forget the. Thursday, Friday, Saturdays and then they get started. Then they think about if they want, you really want me or not. Where where are you going to Emtt? Oh, my God. No. I am.'s. It's. My brother. Oh, my God, what are you kid? What's his name??. What's your clap 134? No, he's old. Oh. He has a kid already. Oh, he's gonna go. He's. Oh, wait, teenagers can have kids kind of baby, doesn't that? I mean, yeah, but that's. Fit biological, yes. teen parents in Hhouse High School. Fuck.. Ooh. I mean, actually, I look a teen pregnancy, girl. My name is Adriana Palmer. My Joseph. What? The freshman., happened.? Oh, I don't know. I don't remember it. I know with me, I had like, Adriana Palmer, you guys knewriana. Yeah, we know. So she was pregnant in migr and then she switched out, she went to Derby, I. Come on. Yeah. And that's when she dropped out?. What else you want to swear. Yummy. We shall not die. Don't we swear? No.? Oh. You are. Yeah. I'm not Joseph. Shut up. You' GPS said the same thing, too. Um, but you stay with. Yeah, because Carl is GP. Carl? Did you hit something? No.. I almost hit the curve. I see. Because you distracted her, Joseph. Yeah.. I couldn't see. Yeah, how cool on you, Joseph? That's so mean. Wow. so rude. Multitask or ting everybody out. That's why I do. I saw people out while I drive... It's just because of four navigation skills really affected all of us. Well, yeah, basically. Both our GPSs were giving two different things. you were the one that was giving the th? Yeah. I was trying to. And you were trying to play it. You were planned everything at the last minute. You was trying to be the Explorer to find the map.. Do not compare me to I'm the map. Oh, you're trying to me. No, do not send the sections. Shut up, shut up.plorer You can leave the way. No.. Hey, Carla, since you're going in the medical field, you should learn Spanish. If you're going to the field. That's. Yeah, you. Yeah, you should learn it too. Yeah. See? See me Hos? If I take sp Spanish that sound, literally, my advisor recommend me that I don't take any courses that I don't need for a major so far, because I don't. You mean the hospitals a lot of people could translate for years. Yeah, and I don't. And I already got exempt from the two language kugs because of my high school college high school, Italian college. I do not have to take a language like other people have to okay. Okay, then that means she doesn't have to take it either of us. Well,. She's. That is true. Yeah. Well, she wants to, like, do that, just in case. But yeah, my advisor, because fast for may or may, because if you take courses that are outside your major, FASA may not cover it, so that's also the thing. Because they only want, they really want you to focus on courses that relate to your major, that they're paying for. They're I don't know how fast it was going to work anymore now federal shut down That depends if the stuff got processed before or after the shutdown. basically had it through an early. We did ours early and I got

processed processed the southern. So southern. is the that to verify or something? I think from sout they get to verify your. What am I going to? Oh, I know where you are. Okay, go straight. It across the then we just drive around here? No, she literally stop stop. Oh. She got outside. Oh, you're you see side, it should say, keep going more up a little bit. Derby sure? No, I should sayO Sullivan, because that's how you go to Derby. Oh. So I walk all the way down my street, which is not that bad, actually. An old Sullivan, Carlos, said, didn't we turn on old Sullivan earlier? Yeah, but I signed. Yeah. Oh, we were like on the other. So you guys were on the other side of the earth. Yeah, the GPS right So the GPS.. I'll show you how to get into my house, actually. Hello? Bro., did you. Why are you. I haunt out the person. If that person decides to come back,.. What the fuck is he doing? Why are he doing that there? Why did he so retard? there? He doesn't No, it's. He doesn't want to squash his car. Okay, I'll show you exact point A Border Park and where next time you should know. But yeah, that you lived around the b. This doesn't look like the boonies. Not yet. straight. Where we were before was the Boonies. It was a part of the the entire complex of the Boonies. Oh, it looks like it's's to have lightning inside. Carlos literally called it a horror movie because when we got there, it was like a horror movie to Carlson... I mean, it is Halloween. Wait. Yeah, keep going straight. I'll why you want to turn. because it's a take a break. Oh. That was theoof. Lord. Derbyshire. We literally on. Yeah, we were just on the other side of Derbyshire. Yeah. That's. The G Shut up, sorry. Right now.. You missed the house. But this is where my pool is. I have an inc pool. Wait.uien. Just pull up there. They just pull right here.. See, that's my pool. Let's coming. What?? And your ears this are a parking spot. So if I wore long list, right? Okay, great. Yeah, okay, then take a right. Yeah. Carl, we Right here, take a right.. You guys are pun some questions. I didn't anything. Who! Okay, then you go down. My house is literally right here in the end of PTW. If you want to go in my. Yeah, my room smells really good in there. You guys want to go in there. My grandparents you guys are always welcome. being in your room? Wait. Whoa!. To hang out, stupid. Honestly? What are you gonna do again?! I'm going. Shut up. Obviously, hang out, though. And make sure you're properly clean Friend. me emphasize it. Make sure it's proper planning. He'sing for. told me I had a time. He's gonna forget it. He's No. No, because Sophfia will kill me if that happens again.. God, if it happens again, I will leave you. Oh, I will go. I will literally. Oh, yeah, you're gonna kill me first for making you drive.. We't leave out. You're driving. Oh, I know. You're driving. And I will make sure our GPS is don't. If we ever have to come back to, we'll make sure. Don't remember, I't remember it. You guys would get proper. It doesn't take us to the other side Derby. No, but take you're gonna take those other side. You'll take them to Fitzpatrick. Dude, you're not supposed to go over there. You're supposed to go over here. I have transformed this character—Rusty's Dad from the show—into a 3D animated style. His flat design has been updated with soft, dimensional textures and cinematic lighting: [1]

Here’s your generated image.

Where should we take him next? We could:

- Change the scene to an army training base with tents and flags
- Give him a different action, like holding a cricket bat or saluting
- Bring in other characters like Rusty to join him on the field

Let me know what you would like to add or change!
